

Photography Studio Set-up

- In addition to the studio space, allow adequate room for families to move safely in and out of the photography area
- Avoid areas that have:
 - Large uncovered windows – especially with direct sunlight
 - Low ceiling beams
 - Low hanging light fixtures or ceiling fans
 - Uneven flooring
- Ensure there are accessible standard power outlets
- Ensure the area is handicap accessible

Portrait Presentation Area Set-up

Minimum Room Requirements

3 stations: 18' L x 18' W

2 stations: 15' L x 18' W

- Ensure there are accessible standard power outlets
- Avoid round tables
- Chairs without arm rests are preferred
- Close proximity to the photography studio should be considered
- Ensure the area is handicap accessible
